

Australian Red Cross
THE POWER OF HUMANITY

21st September 2010

To Whom It May Concern

Transport & Marine Ltd has provided great support to the Australian Red Cross reconstruction project on Niuatoputapu, Tonga. A project to construct 74 temporary houses, destroyed as a result of the September 30th Tsunami.

Dennis and his teams' vast experience within the maritime industry has been pivotal in the transport of 74 homes to this remote area of Tonga. This support to our project is greatly appreciated as are the lengths he and his crew have gone to in accommodating our voyages, sometimes at extremely short notice.

Nothing has been too difficult throughout the project for Dennis, and his abilities to assist in negotiations between ourselves and the Ministry of Transport have reflected both his professionalism and business acumen.

Without hesitation, I would recommend Transport & Marine Ltd to any organisation seeking a professional maritime service provider.

Yours Sincerely

Mike Shearing
Project Manager
NTT Reconstruction Project
